- People:** Louis XIV, King of France -1638-1715
- Abstract:** What was the efficacy of Louis XIV's purpose in staging, during the construction of Versailles, a series of entertainments about witches ensnaring soldiers in dens of pleasure? Drawing on tales from Italian epics, these stories combined themes of love and honor going astray and found their remedy in the final scenes, where gorgeous stage palaces burst into flames and the soldiers escape to real life and love. Eluding the entrapment of the court became a theme beyond entertainments within the château and spread to the theatres of Paris. The king promoted change--and his power over it--in his selection of similarly deconstructive presentations in his theatre and in his constant revisions for his garden. [ABSTRACT FROM AUTHOR]

Image Caption: Bratislava's Slovak National Theatre at the Hviezdoslavovo square is one of the few buildings in the Old Town still used for its original purpose. It is home to the opera and ballet performances. The splendid interior of the theatre was designed by the Viennese architects F. Fellner and H. Helmer. This theatre was built between 1884 and 1886 in place of the original theatre of estates. Two years later the Ganymede's fountain was placed in front of the theatre.
